

WRIST & HAND PHYSIOTHERAPY

ASSESSMENT FORM

Patient Information

- Patient Name: _____
- Age/Sex: _____
- Date: _____
- Contact No.: _____
- UHID/IPD No.: _____
- Occupation: _____
- Hand Dominance: ☐ Right ☐ Left
- Referring Doctor: _____
- Diagnosis: _____

SUBJECTIVE ASSESSMENT

Chief Complaint

History of Present Illness

- Onset: ☐ Sudden ☐ Gradual
- Cause: ☐ Trauma ☐ Overuse ☐ post-operative ☐ Arthritis ☐ Neurological
☐ Other _____
- Duration: _____
- Progression
☐ Improving ☐ Same ☐ Worsening

Pain Assessment

Location of pain:

Nature

☐ Sharp ☐ Dull ☐ Burning ☐ Throbbing ☐ Tingling ☐ Numbness

Pain Scale (NPRS)

Rest ___/10

Movement ___/10

Night ___/10

Aggravating Factors

- ☐ Gripping ☐ Lifting ☐ Writing ☐ Typing ☐ Twisting ☐ Weight Bearing
☐ Other _____

Relieving Factors

- ☐ Rest ☐ Medication ☐ Ice ☐ Heat ☐ Splint ☐ Other _____
-

Functional Difficulties

- Difficulty in ☐ Holding objects ☐ Zipping ☐ Buttoning clothes ☐ Opening jars ☐ Writing
☐ Typing ☐ Cooking ☐ Personal hygiene ☐ Carrying bags ☐
Driving ☐ Mobile use ☐ Work activities ☐ Sports
☐ Others _____
-

Past History

- ☐ Fracture ☐ Surgery ☐ Diabetes ☐ Rheumatoid Arthritis ☐ Osteoarthritis
☐ Cervical pathology ☐ Neurological disorder ☐ Previous injury
Others _____
-

Medication -

Investigations -

- ☐ X-ray ☐ MRI ☐ CT scan ☐ Ultrasound ☐ NCS/EMG Findings
-
-

OBJECTIVE ASSESSMENT

Observation

- Posture- ☐ Normal ☐ Protective posture
Swelling- ☐ Yes ☐ No Location _____
Redness- ☐ Yes ☐ No
Deformity- ☐ Yes ☐ No
Scar - ☐ Yes ☐ No

Muscle wasting- ☐ Yes ☐ No

Skin condition-

Palpation

Temperature: ☐ Normal ☐ Increased ☐ Decreased

Tenderness Grade

0 - No tenderness

1 - The patient says the area is tender

2 - Patient winces due to pain

3 - Patient winces and withdraws the affected part

4 - Patient doesn't allow touching the affected part

Location _____

Muscle spasm ☐ Yes ☐ No

Edema ☐ Yes ☐ No

RANGE OF MOTION (ROM)

Movement	Active	Passive	Pain
----------	--------	---------	------

Wrist Flexion

Wrist Extension

Radial Deviation

Ulnar Deviation

Forearm Pronation

Forearm Supination

Thumb ROM

CMC Flexion

Extension

Abduction

Opposition

Finger ROM

Finger	MCP	PIP	DIP
Index			
Middle			
Ring			
Little			

Muscle Strength (MMT)

Muscle	Grade
Wrist Flexors	
Wrist Extensors	
Radial Deviators	
Ulnar Deviators	
Pronators	
Supinator's	
Thumb muscles	
Finger Flexors	
Finger Extensors	
Intrinsic muscles	

Grip Strength

Measured using Dynamometer

Right _____ kg

Left _____ kg

Pinch Strength

Tip Pinch _____

Key Pinch _____

Palmar Pinch _____

Sensory Assessment

Light touch- ☐ Normal ☐ Impaired

Pin prick- ☐ Normal ☐ Impaired

Temperature ☐ Normal ☐ Impaired

Vibration ☐ Normal ☐ Impaired

Two-point discrimination - _____ mm

Dermatomes involved- _____

Reflexes (if indicated)

Biceps _____

Triceps _____

Brachioradialis _____

Special Tests

Carpal Tunnel

☐ Phalen's Test

☐ Reverse Phalen

☐ Tinel's Sign

☐ Durkan Compression Test

De Quervain's Disease

☐ Finkelstein Test

☐ Eichhoff Test

TFCC Injury (triangular Fibrocartilage Complex)

☐ Press Test

☐ TFCC Load Test

☐ Piano Key Test

Thumb

☐ Grind Test

☐ UCL Stress Test

Tendon Tests

- ☐ FDS
 - ☐ FDP
 - ☐ Extensor Tendon
-

Ligament Tests

- ☐ Watson Test
 - ☐ Ballottement Test
-

Functional Assessment

Activities of Daily Living

Activity	Independent	Modified	Dependent
Eating			
Dressing			
Bathing			
Grooming			
Writing			
Carrying Objects			
Cooking			
Typing			
Household Work			

Functional Outcome Measures

Patient Rated Wrist Evaluation (PRWE)

Pain ____ /50

Function ____ /50

Total ____ /100

DASH Score

Disabilities of Arm, Shoulder and Hand

Score _____

Quick DASH

Score _____

Michigan Hand Outcomes Questionnaire (MHQ)

Score _____

Upper Extremity Functional Index (UEFI)

Score _____

Edema Measurement

Figure-of-eight method

Right _____

Left _____

Circumference

At Wrist _____

Palm _____

Finger _____

Dexterity Assessment

☐ Nine-Hole Peg Test - Time _____

☐ Purdue Pegboard - Score _____

☐ Box and Block Test - Score _____

Clinical Impression

Problem List

- 1.
- 2.
- 3.
- 4.
- 5.

Goals

Short-term Goals

- ☐ Pain reduction
- ☐ Increase ROM
- ☐ Reduce oedema
- ☐ Improve grip strength
- ☐ Improve hand function
- ☐ Improve dexterity

Others _____

Long-term Goals

- ☐ Independent ADLs
 - ☐ Return to work
 - ☐ Return to sports
 - ☐ Improve endurance
 - ☐ Full functional recovery
-

Physiotherapy Treatment Plan

- ☐ Pain management
- ☐ Cryotherapy
- ☐ Thermotherapy
- ☐ TENS
- ☐ Ultrasound
- ☐ Joint mobilization
- ☐ Soft tissue release
- ☐ Tendon gliding exercises
- ☐ Nerve gliding exercises
- ☐ ROM exercises
- ☐ Stretching
- ☐ Strengthening
- ☐ Grip strengthening
- ☐ Pinch strengthening
- ☐ Dexterity training
- ☐ Functional task training
- ☐ Splinting
- ☐ Ergonomic advice
- ☐ Home Exercise Program

Home Exercise Program
